Summary

A Fullstack Developer with 4 years of experience in developing and maintaining web applications. Seeking to use technical proficiency and creativity to develop engaging user experiences.

Skills

- Strong experience with ReactJS / NextJS / TypeScript web development ecosystem.
- Expert in HTML/CSS/SASS and Tailwind / ShadCN with knowledge of UX/UI design principles
- Familiarity with RESTful APIs.
- Experience in i18n, l16n and a11y.
- Experience in enhancing developer experience.
- Strong problem solving and debugging skills.
- Knowledge of code versioning tools such as Git.
- Excellent communication and collaboration skills.
- Familiarity with Agile and Scrum processes.

Experience

Fullstack Developer (Next JS)

@Dune Technologies (@Obrizum)

Sep 2024 - Today

Remote

- Implement new features and update existing ones.
- Bug fixes and outage interventions
- Technical debts assessment and performance improvement.
- Peer code review and knowledge sharing.
- Maintain dependencies.
- Document new features.

Key Achievements

- Contributed in the internationalization of [Obrizum learning platform](#).
- Built a custom type-safe useTranslation hook and Translate component (on top of i18next and react-i18next) and implemented eslint rules to provide seamless developer experience while dealing with internationalization.
- Implemented accessibility standards to meet WCAG AA 2.0 using Axe-core and Playwright tests.
- Enhanced app's data flow and hydration by leveraging NextJS's middleware and SSR.

Frontend Developer (Next JS)

@Obeyaka

Oct 2023 - May 2024

Remote

- Participate in [Obeyaka](#) product discovery process and assess UX/UI designs for technical feasibility.
- Develop modular, reusable code components to streamline development and maintenance.
- Focus on improving user experience by optimizing UI elements and navigation flows.
- Design-system implementation.

Key Achievements

- Built an internal UI library as an npm package using React, Shadcn/ui and Storybook.
- Built 10+ features based on micro-frontends architecture using Next JS.

Experience (Continued)

Frontend Developer (React JS)

@WeCraftBytes

Sep 2022 - Oct 2023

Remote

- Build React JS components based on Material UI for [Keibi.io](https://keibi.io) and [Va-plan](https://va-plan.com)
- Optimize features using code splitting, lazy loading, and caching.

Key Achievements

- Built 8+ chart components using Fusion Charts, Chart.JS and D3
- Built 10+ forms using React Hook Form

Fullstack Developer (React JS / .NET)

@Chambi Eagle Technologies

Oct 2021 - Sep 2022

Ariana, Tunisia

- Build a domain-driven api with a code-first database using .NET 6, Entity Framework and PostgreSQL.
- Build a web application using React JS, Redux & Typescript.
- Work in Agile development process.

Key Achievements

- Deployed the first version of [Phalcon CRM](https://phalconcrm.com).
- Reduced server's memory consumption by 30% which reduced the api response time by up to 400ms, by writing 14+ SQL views and implementing best practices to improve Entity Framework performance.
- Built 20+ React components for forms, data grids and charts.

Frontend Developer (Php / Javascript)

@Intuitiv Interactive

Jun 2021 - Oct 2021

Tunis, Tunisia

- Create reusable components with TWIG engine.
- Ensure designs are user-friendly and responsive across various devices and screen sizes.

Key Achievements

- Integrated 20+ components for www.institutcochin.fr

Education & Certifications

Certificate of Professional Competence - Software developer

Jun 2023 @Ministry of Vocational Training and Employment, Tunis, Tunisia

Fullstack JS Bootcamp (MERN)

Jul 2021 @GoMyCode, Tunis, Tunisia

Bachelor in Marketing

Sep 2014 - Jun 2017 @IHEC Carthage, Tunis, Tunisia

Baccalaureate in Mathematics

Sep 2008 - Jun 2012 @Lycée Carthage Byrsa, Tunis, Tunisia
